

Welcome to PlanMaker! You have purchased an extremely powerful and easy-to-use spreadsheet application.

In developing this program, we have made every effort to integrate and harmonize PlanMaker's functions in such a way that you get the greatest possible benefit with the least amount of work.

PlanMaker gives you enough freedom to meet your individual needs. A wide range of settings lets you set up PlanMaker the way you like it best.

**Note:** This manual was written in order to describe how to use the program via the new **ribbon user interface**. A description of its use via **classic menus with toolbars** can only be found in older manuals.

**Tip:** A table in the appendix shows you which ribbon command corresponds to which menu command:  
[Ribbon commands and corresponding menu commands](#)

**Note:** Some features have been disabled in **SoftMaker FreeOffice** (the free version of SoftMaker Office). Features that are not available in the free version are marked with a red box like this one.

## Some features of PlanMaker

- Available for **Windows, Mac, Linux, Android** and **iOS**
- Well-designed, ergonomic **user interface** – either with a modern "ribbon" or classic menus with toolbars
- PlanMaker knows **more than 400 arithmetic functions** – from simple totals to varied financial and statistical functions.
- Makes creating attractive worksheets easy through **numerous formatting options**. Simple columns of data can be transformed into clear and appealing tables at the touch of a button using the **"Tables in worksheets"** feature. With **cell styles** and **character styles**, you apply frequently needed formatting at the touch of a button.
- Integrated **charting module** that lets you present numbers vividly in charts
- ... and much more!

PlanMaker is being developed continually. If, when working, you discover the need for a feature that is not yet available, or if you have any other suggestions, please contact us as we want PlanMaker to meet the needs of users!

## Android version and iOS version

PlanMaker is also available for Android and iOS devices and contains practically all features of the Windows version.
